

WHAT IS IT ?

W-CH200M chocolate wrapping machine is ready to wrap any chocolate piece no matter how small it is.

It can wrap 80/chocolate pieces per minute, which their dimensions start from (L*W*H = 18*10*3) mm.

It provides the ability to change the wrapping paper size, and it can save up to 12 different paper sizes, which grant easy calibration. W-CH200M includes 3 optional molds which are comfortable and super-fast to replace it in only 6 minutes without the need for an expert to do it for you. Besides, the machine contains a digital counter that can count the wrapped chocolate pieces ,which can ease the production process.

PRODUCT SAMPLE.
